

## California App-Based Driver Data During 1st Year of Pandemic

**\*\*All Data California Specific\*\***

<b>Drivers</b>	<b>Total</b>
<b>Total CA drivers in 2020</b> <i>(Anyone who drove 1 trip or more in 2020)</i>	1,280,240
<b>Total new CA drivers during 1st year of pandemic</b> <i>(Any new person who did at least one trip for first time during pandemic: March 1, 2020 - Feb 28, 2021)</i>	808,469
<b>Total CA driver earnings during 1st year of pandemic</b> <i>(March 1, 2020 - Feb 28, 2021)</i>	\$ 4,223,994,921.07

*The coalition calculated aggregate, California-specific data separately provided by DoorDash, Instacart, Lyft, Uber & UberEats. Data does not include other app-based platforms including Grubhub, so actual driver and earning data is likely greater.*
